Jupiternetwork – The Small Business Computer and Network Professionals .

## **Jupiternetwork receives 2007 Minority Supplier of The Year for the Rocky Mountains.**

January 8, 2008, Denver, Colorado – Jupiternetwork is pleased to announce that it has won the M.E.E.D. Minority Supplier of the Year for 2007. Jupiternetwork joins the ranks of several other top companies in the Rocky Mountain Region.

Gregory Tanner CEO of Jupiternetwork commented “This award is the reward of our great team in place at Jupiternetwork; our team is very detail oriented, conscientious and hard working. This is their recognition as much as anyone’s.” Jupiternetwork was recognized for its superior customer service, growth and services offered to rapidly growing companies in the community.

“Much of our recognition stems from our ability to manage the small and mid sized business networks professionally and affordably.” Says Gregory Tanner, “From that ability, we can build and supply effective solutions to businesses.”

Jupiternetwork is a Managed Network Services and IT consulting and firm based in Denver CO. Since 1999 the company has provided Computer and Network support, Web Services, and Consulting Services. The company provides managed network services to firms ranging from 1 to 100 persons with a specialty in growing small businesses. The company has strategic partnerships with Microsoft, Dell, Cisco, Cybernetics, Sendio and Mailfoundry.
